HYALURONIC ACID, EVERYBODY IS TALKING ABOUT IT!

But what is it exactly?

Naturally present in your body, the hyaluronic acid molecule (HA) plays an essential role in skin repair.

- HA gives your skin a smooth and fresh appearance by preserving its elasticity, firmness and hydration.
- The quantity of hyaluronic acid in your body diminishes with aging process, and between 40 and 50 years old you have already lost 50% of it*.
- This is why your cheeks and cheekbones become hollower with age; some wrinkles become visible, the shape and the contours of your face change. So, the overall balance of your face evolves.

TEOXANE Laboratories have found an immediate and effective solution to fill the signs of aging: **TEOSYAL®** is a 100% hyaluronic acid based exclusive range of wrinkle filling products.

Characteristics of the hyaluronic acid used in TEOSYAL® products

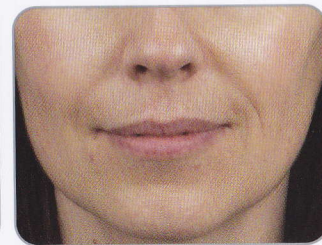

- Totally biodegradable and absorbable
- Non-animal origin
- Presented in an injectable form
- Designed to meet all your needs: from hydrating your skin to filling your wrinkles. It also restores the loss of volume from your face, outlines the contours of your lips and gives them more volume.

Immediate, visible and natural, rejuvenation with injection of Hyaluronic Acid

BEFORE

AFTER

10 minutes treatment: injection of 2 TEOSYAL® syringes

20 minutes treatment: injection of 3 TEOSYAL® syringes

15 minutes treatment: injection of 2 TEOSYAL® syringes

... DOES IT HURT?

Fear of pain is one of the first obstacles patients face about injections. Before undertaking the act of dermal filler injection, 94% of patients think it will be painful.*

.....
Nowadays, TEOSYAL® proposes a smooth and gentle hyaluronic injection.

Because we understand your concern about pain, TEOXANE Laboratories can now offer you a range of products containing the local anaesthetic the most commonly used by surgeons and dentists throughout the world: lidocaine. This guarantees you an optimum comfort throughout your injection session.

9 patients out of 10

found TEOSYAL® product injection significantly less painful than an injection without lidocaine*

... DOES THE RESULT LOOK NATURAL?

The hyaluronic acid in TEOSYAL® implants is biocompatible, natural and resorbable. Quality and purity of TEOSYAL® hyaluronic acid gels guarantee natural and immediate results with only 1 session lasting 10 to 15 minutes.

.....
The TEOSYAL® range includes several exclusive and complementary products which efficiently fill and immediately correct wrinkles preserving the natural characteristics of your facial expressions.

Naturally and with discretion, your face regains its smooth aspect.

100% of patients

are satisfied with the aesthetic efficiency*.

99% of injected patients

report they would be prepared to be re-injected with TEOSYAL®*

* Multicentre study on 32 patients, France, 2010, Dr Trevidic and Dr Claude

** Prospective study - Harryono JUDODIHARDJO, MBBS, MSc, PHD, and Peter DYKES, BSc, PHD - 25 patients - Dermatology surgery June 2008

ACID INJECTIONS FOR A LONG TIME BUT...

...DOES IT LEAVE ANY MARKS?

A very small discomfort and some redness may appear on the injection site.

Thanks to the purity of Teosyal® gels, post-injection effects usually decrease in few hours**. You can return to your social life immediately after your injection.

Moreover, to ensure your comfort, TEOXANE Laboratories have developed a cosmeceuticals range containing hyaluronic acid specifically designed to offer accelerated skin regeneration, optimum comfort and discretion immediately after your aesthetic procedure:

TEOSYAL

COSMECEUTICALS

- 1 REGENERATE with PRE/POST**
Regenerating soothing care
- 2 CORRECT with COVERING REPAIR**
High coverage corrective foundation - SPF 15
(bruises, redness, skin imperfections, dark circles, etc.)
- 3 MOISTURIZE and ENHANCE with ADVANCED FILLER**
High Nutrition Anti-Wrinkle Cream

RESULTS: you can return to your social life immediately after the injection session. Day after day, your skin is replumped, firmed and intensely moisturized.
